What services would you like to see added to this list?

JerseyConnect Managed WiFi Service

JerseyConnect Managed WiFi Service

Primary driver behind service establishment

IMLS data element 652:

"Report the number of wireless sessions provided
by the library wireless service annually."

https://www.imls.gov/assets/1/AssetManager/PLS_Defs_FY2014.pdf

JerseyConnect Managed WiFi Service

4 step process to implementation

- Establish BoM (phone call or on site, one to one AP replacement typical, opportunity to add coverage)
- Physical installation (JerseyConnect (limited) or library)
- Integration into existing wired network (depends on existing SME - library staff, consultant)
- Configuration and management of WiFi network (JerseyConnect or library)

JerseyConnect Managed WiFi Service

Service adoption summary

- 35 library entities including 5 County library systems
- 168 APs and counting
